

Features & Benefits:

1. A standard type for bolt tightening application
2. A click will signal that the proper amount of torque has been applied
3. Easy operation and user comfort
4. Safety and reduce possibility of damage
5. Compact, durable and reliable
6. Durable gear and Strong reaction arm

N TYPE TORQUE WRENCH

Part No. SRFS – NTW-01

Parameter Type	Specification	Tolerance	Unit
Appearance Size	115* ϕ 15		mm
Orifice Diameter	ϕ 20.0	\pm 0.1	mm
Torque Value	1	\pm 0.1	N*M
Weight	0.2		Kg
Appearance Color	Pink		

APPEARANCE STRUCTURE
